

9MM ACOUSTIC FELT

Immerse™ is a sound-absorbing rigid felt material designed to quiet a space in style. It is an environmentally sustainable material, which contains a minimum blend of 50% post-consumer waste sourced from recycled PET bottles.

The Immerse line of acoustical partitions places emphasis on softening sound to enhance the acoustics within a space, whether it be for the home or corporate office. Through noise absorbing material and specific design features, excess sound is captured by Immerse™, creating an acoustically comfortable environment that provides stillness and promotes peace of mind and well-being.

The background of the page is a collage of various colored acoustic felt samples. A prominent red diagonal line runs from the top right towards the bottom left. Below this line, there are several overlapping rectangular samples of felt in different colors: a dark grey/black sample, a light blue sample, a bright pink sample, a red sample, a dark brown sample, and a yellow sample. The felt has a visible fibrous texture.

*Pantone call-out is for close reference only.
Slight variations in fiber color between dye lots is common.

PRINTS

Our print capabilities are unmatched. We use state-of-the-art latex print technology to digitally print onto the Immerse™ material. This technology offers vibrant output, excellent resolution and displays the artwork of your choice, all while retaining the sound absorption qualities of the Immerse material.

immerse™ ACOUSTIC TRIFOLD SMALL

The Small Trifold is a sound absorber designed to surround a laptop or small screen on a desk or tabletop. Panels are held together with Velcro tabs, allowing you to extend the sides as wide as desired.

*Dimensions shown are of flat unit.

OPTIONS

Unprinted: Choose a stock color for the front & back.

Single Sided Print: Choose a stock color for one side & a stock print OR custom art for the other side.

Double Sided Print: Choose stock prints for both sides OR submit custom printed artwork OR mix & match.

DESKTOP PARTITIONS

immerse™ ACOUSTIC TRIFOLD MEDIUM

The Medium Trifold sound absorber is designed to surround medium/larger monitors 20-30+ inches wide on a desk or tabletop. Panels are held together with Velcro tabs, allowing you to extend the sides as wide as desired.

*Dimensions shown are of flat unit.

OPTIONS

Unprinted: Choose a stock color for the front & back.

Single Sided Print: Choose a stock color for one side & a stock print OR custom art for the other side.

Double Sided Print: Choose stock prints for both sides OR submit custom printed artwork OR mix & match.

immerse™ ACOUSTIC TRIFOLD LARGE

The Large Trifold sound absorber can be placed in any space to diffuse and soften sound. It is tackable and can be used to display artwork and important papers using push pins. Panels are held together with Velcro tabs, allowing you to extend the sides as wide as desired.

Description

Rigid felt with matte finish designed to absorb mid-high range acoustical noise. Tackable, impact resistant, bacteria resistant, moisture resistant, installation friendly.

Application

Offers acoustical clarity when introduced within an environment in applications for walls, ceilings, partitions and other design solutions.

Size / Weight

3/8" (9mm) x 4ft x 8ft (+/-) sheet

8.5 lbs. / sheet (3.85 kg)

Material Content

100% Polyester, min. 50% post-consumer waste sourced from recycled PET bottles; Formaldehyde free, NO-VOC

The material production process itself generates no waste.

Acoustical

ASTM C 423- best performance SA=0.98

ASTM E 1264- NRC- 1.0

Flammability

ASTM E-84 Class A

Material Care

For routine maintenance lightly dust with a soft brush or vacuum.

For light marks or stains:

****Avoid excessive amounts of water.**

- Gently clean excess with sponge or cloth.
- Sponge with a small amount of carpet shampoo working circularly from well outside the stain towards the center.
- Sponge afterward with warm damp cloth and mop excess water with a clean dry cloth or sponge.
- Allow to dry.
- Brush gently with a soft brush.
