Modulate Magnetic Counter

The Modulate™ Magnetic Counter accents the Modulate line of mix and match banners and reconfigurable exhibit kits. Couple Modulate banners with the Modulate Counter to create kiosks and workstations for use in tradeshow exhibits, at events and in more permanent settings. The Modulate Magnetic Counter comes with a magnetic, snap-button tube frame, an internal shelf, a printed stretch fabric graphic and a portable carry bag. The graphic spans the perimeter of the frame and attaches with hook and loop, making it easy to get inside the counter for what you need.

### features and benefits:

- Portable display counter
- Magnetized, aluminum tube frame
- Top available in four laminate finish options
- Quick to set-up
- Stretch fabric graphics attach with hook and loop velcro
- Includes internal shelf
- Carry bag included
- Easy to store and ship
- One year hardware warranty against manufacturer defects

Gather the components to build the frame. Use the Exploded View for part labels.

Reference Connection Method(s) 1 for more details.

Gather the components needed to install the counter top. Use the Exploded View for part labels.

Reference Connection Method(s) 2 for more details.

Gather the components needed to attach internal shelf. Use the Exploded View for part labels.

Step 1.

Step 2.

Step 3.

Step 4.

Gather the components to build the frame. Use the Exploded View for part labels.

CT-BLOCKS ARE FOUND UNDER THE COUNTER.

Gather the components needed to attach internal shelf. Use the Exploded View for part labels.

the Graphic is attached to the counter with velcro. The velcro is on the top and bottom outside tubes. Start in one corner and wrap the graphic around the frame. Once you have returned to the starting point, adjust as needed then zipper the graphic closed.
Connection Methods

Connection Method 1: PUSH TAB CONNECTION

The top and bottom come pre-assembled, the top tubes are riveted to the connector. The SIDE SUPPORT tubes will snap into place shown in the picture above using a push tab lock. The SIDE SUPPORTS lock the top and bottom frames together.

Connection Method 2: CT-BLOCKS/ COUNTER TOP

Plastic CT-BLOCK will come attached to the bottom of the Counter top. This helps the Counter to not slide around on the tubes. Any cutting of the tubes or screws would weaken the strength of the tubes. So, CT-BLOCKS are used.
