additional information:
- 18 Volts
- 1200 Lumens
- 500K Kelvins

- Light is not protected against moisture. Do not expose to direct or indirect moisture.
- Overloading power supply can cause overheating, shorting and possibly fire.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.
1. Attach Light to Dovetail
   Slide light onto dovetail.

2. Connect the Power Supply
   Plug the power supply into the back of the light (either socket can be used).

3. Position Light
   Fine adjustments can be made on the head of the light.

4. Connect Power
   Plug into the power supply, there is no switch so the light will come on once plugged in.

5. Link Lights
   Plug the link cable into the back of the light to link lights.
   A maximum of five lights can be linked from one power supply.

6. Attach Light to Extrusion
   Hook into channel profile.
