**Connect the Power Supply**

Plug the power supply into the back of the light (either socket can be used).

**Link Lights**

Plug the link cable into the back of the light to link lights.

A maximum of five lights can be linked from one power supply.

**Attach Light to Dovetail**

Slide light onto dovetail.

**Attach Light to Extrusion**

Use the height extension for extra clearance over graphics.

Hook into channel profile.

**Position Light**

Fine adjustments can be made on the head of the light.

**Connect Power**

Plug into the power supply there is no switch so the light will come on once plugged in.
