TABLET-STD-05
Connection Methods

Connection Method 1: ES30

For snap button connections, locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

Connection Method 2: TC-30-L

Attach the TC-30-L to the tube and twist it. For tablet holder attachment, tighten the back plate with screws and attach the TC-30-L to the tablet holder. Twist the TC-30-L to lock it in place.
Kit Assembly
Step by Step

Step 1.
Gather the components to build the frame. Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method 1 for more details.

Step 2.
Attach the frame to the base by tightening in the screws and then tightening the wing nuts.

Step 3.
Take the graphic and pull it over the frame, aligning it with the base.

Step 4.
Take the monitor bracket and tablet holder and attach it to the frame.

Reference Connection Method 2 for more details.
