WARNING: Always attach graphic to base and top rail before removing the locking pin. After fitting, the graphic should be left for 24 hours before use to ensure the adhesive bonds sufficiently. Opening the base will invalidate the product warranty.

Graphic tension may be re-applied or added. See visual instructions.

Lumina 2 and LED Spot banner lighting option available

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.
Set-up

1. Assemble pole.
2. Secure pole(s) in the base of stand.
4. Gently raise the graphic.
5. Gently lean the unit back and pull the graphic up by the top rail.
6. Leveling feet located under unit.

Graphic to top rail attachment (plastic insert)

1. Pull out plastic end caps, unsnap top rail and remove slider from rail.
2. Peel film to expose adhesive; place plastic insert from rail on the top of the front side of the graphic.
3. Press down on the plastic insert to make sure adhesive is secure on graphic.
4. Insert the plastic insert with graphic attached into the top rail.
5. Snap close top rail and insert the end caps.
Graphic to base attachment

1. Extend the white leader strip from the base.
2. Line the bottom of the front of the graphic print with adhesive tape on back of the white leader strip.
3. Remove film from adhesive tape. Once aligned, apply pressure to graphic to adhere tape.
4. Slowly retract graphic print into the base.
5. Remove pin.

Tensioning Graphic

1. Graphic can be re-tensioned.
2. To retention, start by reinserting pin.
3. Insert tensioning tool (not included) and turn clockwise.
4. Turn tool 1-2 intervals until desired tension is achieved.
5. Remove pin.
