Formulate C-Shaped Wall

C-WALL
Formulate® tension fabric conference walls are lightweight, stylish solutions to your meeting space needs. Ergonomically designed, Formulate C-shaped and Serpentine-shaped walls combine the latest developments in fabric printed technology with gently curved 50mm aluminum frames to create private, cozy and stylish conference areas within any space.

**features and benefits:**
- State-of-the-art 50mm curved aluminum tube frame with sturdy internal spigots
- Perfect for a small table and chairs or benches for seating
- Create a stylish, semi-private space
- Kit includes: one frame, one dye-sublimated zipper pillowcase graphic, and one wheeled molded OCE storage case
- Lifetime hardware warranty against manufacturer defects

Connection Methods

Formulate® structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specific method for each connection point.

**Connection Method 1:**
ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

**Connection Method 2:**
Snap Buttons & Swage

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

**Connection Method 3:**
ES30-90B / ES30-I / ES30-C

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

**Connection Method 4:**
Tube Clamps

TCP TC TCH

Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame’s tubes in the clamp, be sure to lock securely, but do not overtighten.
Kit Assembly
Step by Step

Step 1.
Gather the components necessary for assembling the frame and lay them flat on the floor. Assemble in the order the Labeling Diagram instructs.

Please reference Connection Methods 1 for more details.

Step 2.
With the frame laying flat on the floor, locate your pillowcase graphic. With the pillowcase unzipped, encase the frame by covering the frame from top to bottom.
