**Formulate 8’ Four Sided Tower**

**COL-03-BL**
Mix and match the Formulate® line of towers to add architecture and drama to any event or interior space. Rectangular-shaped towers come in 12ft, 10ft and 8ft heights and 3ft square at the top and bottom. They combine the latest developments in fabric printed technology with aluminum tube frames to add dimension, decor and sculpture to any event, stage set, tradeshow booth or interior space. Formulate towers accommodate internal LED lighting to create a glowing effect.

*State-of-the-art 30mm aluminum tube frame with snap button assembly*
*Easy to store and ship*
*Quick to set up*

- Kit includes: one frame, one dye-sublimated zipper pillowcase graphic, internal lighting components, and one wheeled storage case
- Lifetime hardware warranty against manufacturer defects

Kit Assembly

Step by Step

Step 1.
Gather the components to build Section 1 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Methods 1 for more details.

Step 2.
Gather the components to build Section 2 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Method 2 for more details.

Step 3.
Gather the components to build Section 3 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Methods 1 & 4 for more details.

Step 4.
Lay the three sections flat on floor. Combine them to complete the tower frame assembly. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Method 3 for more details.
Kit Assembly

Step by Step

Step 5.
Gather the components to connect lighting to the frame.

Connect the lighting components to the frame. Use the Exploded View and Lighting Diagram for part labels. These components simply hang from tube T4 at the top of the frame and the power cable runs down and out of the bottom opening.

Step 6.
Close the zippers and carefully stand the tower upright.

Setup Complete
Connection Methods

Connection Method 1: COL-01-T1/ COL-01-T2/ TC-30-3W
First, Connect bottom tubes (COL-T1) and side tubes (COL-T2) to TC-30-3W. Repeat previous step until all four sides of bottom are assembled. Use this method for the TOP & BOTTOM.

Connection Method 2: TC-30-X
First, connect spreader tubes (COL-T3) to TC-30-X. Second, once the X frame is assembled, connect side tubes (COL-T6).

Connection Method 3: COL-01-T2/ TC-30-T/ COL-01-T3
Slide the COL-T3 into the TC-30-T until it snaps in place. Repeat this for all 4 middle sections. Follow same process with connecting COL-T2 to TC-30-T.

Connection Method 4: COL-01-T4/ COL-01-T5
Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.
