Formulate 20’x 20’ Island Exhibit - Kit 09

CFAB-K-09

Formulate® Fusion provides an unparalleled dynamic that elevates and accentuates a message and brand, but also maximizes the return on trade show investment. Formulate Fusion is Origin’s collection of 20ft x 20ft exhibit kits and custom solutions. A fusion of FORM, FABRIC and FUNCTION, these kits combine organic and architectural shapes with state-of-the-art zipper pillowcase dye-sublimated fabric graphics to create unique, dynamic and functional island space.

features and benefits:
- Aluminum tube frame
- Kit includes frame, dye-sublimated graphics
- (2) wood counter cabinets
- Lifetime hardware warranty against manufacturer defects

Formulate® structures use a number of different yet simple connection methods. Your kit will include one or more of the connection methods shown below. Steps within the Kit Assembly will reference a specific method for each connection point.

**Connection Method 1:**
**ES30 / ES50 / ES75**

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

**Connection Method 2:**
**Snap Buttons & Swage**

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

**Connection Method 3:**
**ES30-90B / ES30-I / ES30-C**

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not overtighten.

**Connection Method 4:**
**Tube Clamps**

Be sure to fully assemble all frames before using clamps. With the clamp unlocked, place one tube of the first frame into the mouth of the clamp. Place the second tube (if applicable) into the second mouth of the clamp. With both frame’s tubes in the clamp, be sure to lock securely, but do not overtighten.

**Connection Method 5:**
**Cam Lock / Slide Lock**

A cam lock equipped extrusion can lock to any cam lock channel. With the cam lock unlocked, set the teeth of the cam lock into the desired position on the cam lock channel. Using your allen key tool, carefully turn the lock clockwise to lock in place. Be sure to lock securely, but do not overtighten.
Kit Assembly
Step by Step

Step 1.
Begin by selecting (2) PHFC4-300-L-L and sliding your DTC brackets through the center channel. These extrusions will become the inner, top extrusions for your Frame B towers. Be sure to orient your DTC brackets as shown in the image to the right.

Step 2.
Assemble (2) Frame B. Be sure to use the two PHFC4-300-L-L on the top of your towers. Assemble from bottom to top using the Exploded View page as reference.

Step 3.
Apply your graphics to Frame B towers. Each tower will need (2) CFAB-K-09-B-G and (2) CFAB-K-09-C-G. Push fit the edges of your graphics into the graphic channels in the extrusions.

Step 4.
Assemble Frame A. Do not attach your CFAB-K-09-T22 tubes. We will add these tubes in a later step. Assemble in the order the Labeling Diagram pages instruct.

Please reference Connection Method 1.
**Kit Assembly**

**Step by Step**

**Step 5.**
Pull your CFAB-K-09-A-G pillowcase over the canopy, be sure to allow the protruding tubes to poke through the holes of the graphic.

Zipper located on the bottom of CFAB-K-09-A-G.

**Step 6.**
Attach your CFAB-K-09-T22 tubes to the frame using ES50 spigots.

Please reference Connection Method 1.

**Step 7.**
Relocate your towers so that the plate on CFAB-K-09-T22 rests on the top of your towers.

**Step 8.**
Lift up on the front of the canopy and allow the screws of your DTC brackets to slide through the holes of the plate. Use the provided thumbscrews and thread them into the holes of the DTC brackets, locking them into place. Use the provided wingnuts to lock the plate to the DTC brackets.

**Bottom of Frame**
Kit Assembly
Step by Step

Step 9.
Place your counters with your assembled kit. The suggested configuration is shown in the image to the right.

Setup Complete
All Hybrid Pro™ Modular counters feature accessible storage and locking doors. Purchased printed fabric graphics or rigid infill panels allow for your messaging and branding.

**features and benefits:**
- White laminate cabinet
- UV graphic, printed on Sintra or on acrylic for back-lighting
- Locking storage door in back
- Easy step-by-step instructions

**dimensions:**
