Included In Your Kit

Tools, Components, & Connectors

- ROTO-HEX-KEY x1
- L90S-900 x4
- LT-900 x2
- PL-600-900 x3
- PL-900-900 x2
- PL-CD-900-900 x2
- CT-32L x2

Graphics

- HPC-04-G x1
Connection Methods

Connection Method 1:
L90S / LT / LAMINATE PANELS

Slide the linking extrusion from above the panel into its side channel. The panel side channels will have tension glides that will create enough pressure to hold them in place.

Connection Method 2:
ROTO LOCKS / LOCATOR BLOCKS

First, start with the counter tops upside down on the floor and roto locks disengaged. Then, align the male and female ends of the counter tops. Using your provided allen key tool, roto lock them in place. Second, carefully lift and rotate the assembled counter top and rest it on the counter cabinet. Use the locator blocks to pilot it in position.
Kit Assembly

Step by Step

Step 1.
Gather the components to assemble the first section of your counter panels. Use the Exploded View for component layout. Components with steel tape must face forward for magnet applied graphic panel.
Reference Connection Method 1 for more details.

Step 2.
Gather the components to assemble the second section of your counter panels. Use the Exploded View for component layout. Components with steel tape must face forward for magnet applied graphic panel.
Reference Connection Method 1 for more details.

Step 3.
Gather the components to assemble the third section of your counter panels. Use the Exploded View for component layout. Components with steel tape must face forward for magnet applied graphic panel.
Reference Connection Method 1 for more details.

Step 4.
Using your provided allen key tool, combine and lock the counter top sections. Using the locator blocks, carefully rest the assembled counter top on the cabinet. Use the Exploded View for component layout.
Reference Connection Method 2 for more details.
Kit Assembly

Step by Step

Step 5.
To apply your magnet attaching graphic panel, starting at the top left corner and lay it across the top horizontal steel tape. Adjust the panel as you work it on to the rest of the steel tape perimeter.

Step 6.
Setup is complete.
