Modulate Ladder Accent 01

MOD-ML-01
Modulate accent enhances the functionality of your modulate frame or backwall kit and adds more real estate for messaging and merchandise displaying too! Add this accent to turn your frame into a kiosk that features a monitor mount and counter space.

features and benefits:
- Medium monitor mount; 32”-55” max monitor size.
- Max monitor weight of 20lbs
- Max counter support of 25lbs
- Easy to assemble
- To be used with frames 7 & 8
- Kit includes: Top fabric structure, medium monitor mount, modulate counter, and graphics for both the top tube structure and the counter
- 1 year hardware warranty against manufacturer defects

Kit Assembly

Step by Step

Step 1.
Gather the components to build the frame. Use the Exploded View for part labels.

Reference Connection Method(s) 1 for more details.

Step 2.
Gather the components needed to attach internal shelf. Use the Exploded View for part labels.

Step 3.
Gather the components needed to install the counter top. Use the Exploded View for part labels.

Reference Connection Method(s) 2 for more details.

Step 4.
The Graphic is attached to the counter with velcro. The velcro is on the top and bottom outside tubes. Start in one corner and wrap the graphic around the frame. Once you have returned to the starting point, adjust as needed then zipper the graphic closed.

CT-BLOCKS ARE FOUND UNDER THE COUNTER.
**Connection Methods**

**Connection Method 1: PUSH TAB CONNECTION**

The top and bottom come pre-assembled, the top tubes are riveted to the connector. The SIDE SUPPORT tubes will snap into place shown in the picture above using a push tab lock. The SIDE SUPPORTS lock the top and bottom frames together.

**Connection Method 2: CT-BLOCKS/ COUNTER TOP**

Plastic CT-BLOCK will come attached to the bottom of the Counter top. This helps the Counter to not slide around on the tubes. Any cutting of the tubes or screws would weaken the strength of the tubes. So, CT-BLOCKS are used.
